WORK HISTORY

MindHub Brothers Bank

In this project, I learned a lot of about OOP, APIRest, modularisation, a little bit of data bases. In the app we can make transactions, open new accounts, request debit and credit cards, request loans, send money to another's users.

Technologies used: Html, Css, Bootstrap, Javascript, Vue js, Java, Spring, Spring Boot, Spring security, Gradle, Postman, Git, Github.

Congress 113

In this project, I improved my javascript skills, making filter, animations and doing more interactive the web app about a United State Congress with all senators.

Technologies used: Html, Css, Bootstrap, Javascript, Git, Github

Mighty Ducks Hockey League

Mighty Ducks Hockey League is a web app with all information about a hockey league to its users can be informed about match schedule, game rules and find a team to new players.

Technologies used: Html, Css, Git, Github.
